Free parking inside the factory grounds (in front of the paint shop), or on Nándorfejérvári utca.

COMPETITION FORMAT

A three-lift (squat/bench/deadlift) powerlifting competition under MERSZ rules. Weigh-in two hours before the start of each category's flight. Equipment doesn't need to be pre-checked, but gear not permitted under the rules may first be warned and later disqualified.

Note: from 1 January 2027 the IPF approved equipment list changes — stiff knee sleeves affected by that rule change will not be allowed at SBD Next II either. If in doubt, ask the weigh-in officials.

Only raw (classic) powerlifting equipment approved under the IPF and MERSZ rules effective 1 January 2027 may be used. Knee wraps and supportive apparel are not permitted. In the Rookie category, form-fitting leggings or shorts may be worn instead of the singlet.

Flight order and exact session times will be published once registration closes.
